FOR MAYOR FLAVIUS O. BEAL.

Death of General Hodsdon In the death of General John I Hods don the State loses one of its most patri otle and widely known a tirens a man whose name will ever be ider tried with the honorable service rendered by the sons of Maine in the dark and trying days of rebellion. Men come and go but the memory of those whose loyalty to the linton gave to this State a proud place in the history of the diffenders of the Flag will live for all time to come Of this number General Hodsdon will ever be included. Called to the highly important position of Adjutant. General by the Legislature of Milne it fanuary, 18(1, he brought to that office a knowl edge of m litary affilirs that proved in valuable in arranging all of the details consequent upor the raising and moving of the freign and was a tower of strength to the had b xecutives during the war period Of the long list of Adjutant Generals of the Northern States it is generally con ceded among a littary men that Ma oc in the person of Ceneral Hodsder occupied a foremost jos tim as regards the pairl otic vigor as well as a comprehensive appreciation of the important duties of the office. Do-Nothing Record Peferring to the Congress which ex res by lumination at noon to-day the Washington correspondent of the I hill delphia Ir ss writes. Aside from the appropriations the record of this (on gress has teen chiefly of what it did not do Nothing has been done on the set ver question excepting to stop the pure chase of siver bullion under the Sher man act. The Micaraguan canal bill, which offered a great opportunity for the Democrats to win appliance for them selves, has been killed in the House simply because the autocratic Speaker Mr trisp, has refused to allow the bill to me up for consideration although over 200 members including a large number of the Democrats in the House, signed a petition asking for the consideration of the bill Even when the House did pass a bill that might have been of some benent to the country, like the pooling bill it has been defeated in the benate. But the Seaste has done some good, work in defeating the miserable sham of a bankruptcy bill which the House passed and a number of others in measures. The question of setting in some way the debt of the Paculc railronds, a question of great importance, is right where it was at the beginning of this Congress. and so with many other things
The one object the Democrats accom-

plished was the passage of a taxis bill with tremendously disastrous consequences to the country That bill, which includes the income tax and the tax on sugar, are about all the Democrats can claim credit for, and they have already been quartelling as to whom should assume the discredit attached to those measures. The condition of the treasurv, the scandalous bond contract and the enormous burden put upon the prohave to be paid as a result, will hardly be included in any of the speeches which the Democrats will deliver on the subject of finances.

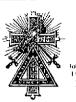

ures in the Treasury Department, by which, as Mr. Gorman asserts, a mistake of nearly \$60,000,000 was made nearly a year ago, and has been adhered to ever since. the deficit continues to increase. The pension office made a requisition several days ago for \$10,000,000 or more for the payment of pensions, but, in the usual way of the Tressury Department, the requisition was not complied with until regulation was not complied with units. February had ended, and this combied the Secretary to keep down the deficit a little for the mouth. As reported now the deficit was \$2,407.978 for the month.

The customs receipts are \$3,000,600 more than for the corresponding month last year, showing a large increase in impor-tations under the new tariff But the nternal revenue receipts are nearly \$3,000,000 less. The expenditures were cut down as compared with a year ago, probably by the Carlisle process of

holding up" appropriations. The lucrease of the debt due to the re

cent sale of bonds does not show in the nonthly statement There actually ap pears a decrease of several millions According to this statement the Breasury has gained \$13 501,361 in its cash balhas gained \$13.6%,251 in its cash balance during the month. That does not represented the month and the contract, but there is nothing whatever in the monthly statement to show any obligation incurred on the part of the Government for this gold obtained from the Rothschild syndicate. The men who turned this gold over to the Covernment got something in the way of an obligation in return. Why should the gold be unde to figure in the dubt statement when the obligation given by the Covernment for the gold is suffrely excluded. But that is the way Mr. Carliste juggles with figures.

Bond Lectures The friends of the Theological Semin ary will be pleased to be reminded of the second course of eight lectures on the Bond foundation which begins on Wednesday evening, the 13.h instant, in the Seminary thapel. It will be remem bered that the first course was given last year by the Rev. W L Griffis, 1) D , author of "The Mikado's Empire." The ecturer of this year is the Rev. A. J. F Behrends, D. D., paster of the Plymouth Congregational church of Brooklyn, who ranks with the ablest preachers of this country His pastorates have been in large churches, the membership of his present church being nearly two thousud. Dr. Behrend's subject is "The In tellectual Equipment of the Minister." Rebrings to its treatment a wide ac quaintance with language, literature

"JULIUS CAESAR !

Instructive Lecture by Mr Henry A Clapp, of Boston Those who attended the lecture upon Julius Caesar' by the distinguished shakespentian scholar and lecturer, Mr Ifemy A Chapp, of Boston, at 1 M A Hall, Saturday excoung, felt that the had an intellectual front end passed a most enjoyable evening. The audience present at the lecture was of fair size

Mr. Clapp diagnosed the character in Cosar as he was treated by Shakespeare in a musterly and very interesting man ner, and found () sar to be noble and pictaresque. The lecturer described a length the characteristics and deeds of the man as the Immortal Bard beliaved him to be and brought a clear cur conception of him to his audience

He then touched upon Brutus, th friend of Cisai, who is treated by chaktapeare as having had the general good at heart in what he did. How far the influence of tassins may have prevailed with lam connot be told. Brutos strongly felt his own prestige in Rome and evilently considered that he had a oul absolutely above mem motives. Brutus was a theorist. When he read and believed, that belief became a part

of hunself Regarding the conspiracy against Cacair there is this admission that while Coesarhad never done an over act of tyranny, in the belief of Brutus he and shown a tendency to do so and that was enough Except Brutus the rest of the band of conspirators appear vulgar Brutus is represented by Shakespeare as always reading lie was the schola n politica. I rom his themes and conviction he reached the resolution to thrust the sword into the side of his friend, Cosar The idea of Shakespeare seems to be that one in order to be just must have practical wisdom, he must

JAMES A ROBINSON & SON Improvements at Their Extensive Establishment At the establishment of the well known

firm of James A. Robinson & Son, extensive unprovements and additions have been in progress recently with excellent results, for their large and constantly growing business. They have taken a umber of the rooms vacated last year by the Public Works Company and have rearranged them so that they occupy nearly the entire building. The cutting department which has been situated at the lower end of the custom room, has been moved and the whole department is now devoted to the display of their large line of custom goods.

On the third floor is the ready made cutting and wholesale clothing department, occupying most conveniently arranged rooms, with the best of light and modern conveniences. The work rooms ecupy the entire fourth floor. Every department is connected with electric bells and speaking tubes and waiters are arranged to carry goods from one floor to another. The firm will have an opening of their

establishment to-day and invite the public to call and inspect it. Their spring goods will also be on exhibition and Mr. George E. Brigham will show : Callahan, whom Manager Sharrott full line of the goods of A. Shuman & oped to secure, has signed with the Co., of Boston. This will include a full line of the children's goods for which they are famous. Jumes A. Robinson & Son are well known in this section of the State as en-

Attorney General Powers' Argu-Attorney General Powers' Argument

At about 12 15 to 11, Attorney General Powers began his argument. He said that t'e State does not seek the conviction of innocent men. The State is careful of the rights and liberties of its citizons. This woman comes here with the presumption of innocence, a presumption that accompanies her through every stage of the trial.

In the first place is there any question in this case that the boy ded from argenical poisoning? It is admitted in his opening words by my brother Robinson it is testified to by several physicians, and in fact, by nearly all of them. Now that is the affirmative testimony, dear, full and comprehensive. No physician has been found who has gone upon the stand and stated that the boy did not die from organical poisoning. I don't wish any don'the play are as to the ry songs capitally sung running through out the performance.

Mr Otts originality in the ludicrous

was to the obstantia and rowler's solution administered to the hoy. Bear in mind the testimony of Prof. Robinson; the most emplosit chemist in the State, that there was nearly a grafa and three-quarters of arsenic in that hoy's body at the time of the hoy's death. ters of arsenic in that boy's body at the time of the hoy's death.

Prof. Robinson also states that he found no bisfrout in the atomach. In all there were 64 grains of bismuth in the house, and if the child had taken it all, only ope-cighth of a grain of arsenic hydrogenic held had taken it all, only ope-cighth of a grain of arsenic bitrogging the bismuth, and the boy was at all the time vomiting and purging, arsenic could not have been introduced into the boy's system to such an extent if he had taken all the medicine, which he did not:

Mr. Powers said the defense had also nother theory that ariseic smil hismorish delecting had allow another theory that ariseic smil hismorish delecting had not have been first order the court on the boy's system to such an extent if he had taken all the medicine, which he did not:

Mr. Powers said the defense had also nother theory that ariseic smil hismorish him Saturday for assentit.

Mr. Powers said the defense had also nother theory that ariseic smil hismorish him Saturday for assentit, and the crossing might have gotten these two mixed. Now the two doctors who "attended the boy hadino white areante powder." The court for took a recess till 3.00.

The court for took a recess till 3.00.

At the afternoomeesalon Mr. Powers resumed ult argument. He hald that it ELEGANT TROPHY.
